

It's time to start gearing up for the Hands On article for the Winter Florida Green issue.  
The topic is: "**Moisture Meters: Tools for Turf Health and Water Conservation**  
Article Deadline to me is – November 19, 2014"

Please pass the word to your Chapter Officers and Board members. I want to give folks plenty of advance notice to set aside a little time to send in their tips and experiences (pro and con) and hopefully positive results in the very critical area of water conservation which is facing our industry nationwide.

Cordially yours,

Joel D. Jackson, CGCS Retired
